

KGB Cleaning South West Ltd Environmental Policy

KGB Cleaning South West Ltd will install and manage its products and services in a manner that recognises its responsibilities to the environment and is committed to pursuing the best environmental practice however and wherever as reasonably practicable.

This policy is effective from the 25th May 2018 and will be reviewed on an annual basis.

KGB Cleaning South West Ltd will implement an Environmental Management System which will:

- Integrate environmental considerations into the business planning and decision making processes.
- Continually monitor and improve our company's environmental performance by implementing management review systems and procedures.
- Set objectives to promote an effective and developing environmental programme.
- Identify, evaluate and manage environmental risks associated with its operations to reduce or eliminate the likelihood of adverse effects throughout their lifecycle.
- Encourage all suppliers and sub-contractors to develop environmental policies in line with the KGB Cleaning South West Ltd policy.
- Train employees in environmental matters appropriate to their role.
- Co-operate and communicate openly with other contractors, neighbours, the general public, government, regulatory authorities and all other interested parties towards the shared goal of improving the environment.
- Comply with all applicable and regulatory statutory requirements as appropriate for each local area.

Whilst the Managing Director takes responsibility for monitoring the effectiveness of this policy and driving the company to achieve continual improvement in environmental performance, the successful implementation of this policy requires total commitment from the senior management team and all employees of the business.

John Nicholls, Managing Director

25th May 2018
